

WENKE vir 2015 (Januarie)

(Nr. 5)

1. Som jou opponent se spel so gou as moontlik op, bv. die kant en die lengte wat hy verkies om te speel.
2. Moenie 'n sterk skoot speel as daar enigsins 'n kans is om 'n skoot te trek nie, of as jy nie die tweede skoot lê nie, of nie die beste agterballe het nie.
3. Moenie luister na wat jou opponent sê nie. Speel en konsentreer op jou eie spel.
4. Drink gereeld 'n slukkie water, veral in die somer.
5. Hou jou opponent se balle dop. Al draai julle balle nie eenders nie, kan jy baie leer i.v.m. die lyne van die baan.
6. As jy nie seker is van die reël nie, moenie met jou opponent stry nie. Hou jouself dus op hoogte van die reëls en etiket van die spel.
7. Speel die skoot wat jou Skipper aanvra. Daar is 'n rede voor.
8. Aangesien jy dalk in 'n ander posisie gekies kan word, moet jy die pligte van spelers in ander posisies ken.

Ek hoop dat 2015 vir almal 'n baie aangename rolbaljaar sal wees.

Groete

Pauline

TIPS for 2015 (January)

1. Sum up your opponent's game as soon as possible, for example; determine which side or length he prefers to play.
2. Do not play a strong shot if there is a chance of drawing the shot, or if you are not lying the second shot, or do not have the best back bowls.
3. Do not listen to what your opponent has to say. Concentrate and play your own game.
4. Take a mouthful of water regularly, especially in summer.
5. Watch your opponent's bowls. Even if your bowls do not have the same curve, you can learn a lot about the lines of the rink.
6. Do not argue with your opponent if you are not sure of the rule. Keep yourself up to date with the rules and etiquette of the game.
7. Play the shot which your skip requested. There is a reason for it.
8. You can be elected to play in another position. Make sure that you know the duties of players in other positions.

I hope that 2015 will be a most enjoyable bowling year for everyone.

Regards

Pauline
